From 11706

M.G.Rama Rao Esquire, B.A.,

Conservator of Forests in Mysore.

Bangalore.

P/P 3-9-18

To

C.S.Balasundaram Iyer Esq., B.A.,

Chief Secretary to the Government of

H.H. the Maharaja of Mysore

Sir,

With reference to your letter No. G.3072-4by P.P. 72-18 dated the 10th instant, forwarding for report, telegram dated 6th idem from the Central Transport and Foodstuffs Board to the Honourable the Resident in Mysore regarding the supply of fodder, I have the honour to state that as the outer portions of Forests within easy reach of villages have been grazed over, the small quantities of grass available in the interior are being carefully conserved against an apprehended shortage of fodder owing to the present adverse seasonal conditions. Several references from Deputy Commissioners to throw open the State Forests for grazing have already been received, which go to show, that conditions are assuming a serious aspect, and eventually might compel us to throw open the forests for free grazing, in which case, no surplus can be expected, as the existing stock is just enough to meet our own requirements, if conditions do not improve. Should the outlook however, change for the better, there will be an abundant supply of grass after about the middle of October next when

when about twenty five thouaand tons of grass could be made available for export.

I have the honour to be,

Sir,

Your most obedient servant,

Conservator of Forests.

FROM

K. R. Srinivasaiengar, Esq., M.A.,
Revenue Commissioner in Mysore.

To

Chief
The Secretary to the Government of
His Highness the Maharaja of Mysore,
~~*Department.*~~

SIR,

With reference to your letter No.G.3072-4 PP 72-18 dated 10th August 1918 regarding the prospects of fodder supply in the State, I have the honor to submit herewith for the perusal of Government copies of reports received from the Deputy Commissioners in the matter. It will be seen therefrom that there is no surplus stock of fodder available for export in any of the Districts and that on the other hand there is a shortage of fodder in all the Districts in consequence of which the State Forests have been proposed to be thrown open for free grazing and permission given for the cutting and removal of date leaves for fodder. How far these measures will meet the situation depends on the seasonal conditions. If the conditions which have shown some improvement in the past fortnight continue favourable, there will not be room for further action. Otherwise steps may have to be taken for the importing of fodder in places where the scarcity is most felt from places wherein it may be available. It is not possible to say now to what extent such import will be necessary.

I have the honor to be,

Sir,

Your most obedient servant,

Revenue Commissioner.

SUBJECT.

Re: the prospects of fodder supply in the State.

National Press, Bangalore. 2,000 -18 12-1917.

Letter No.D (2).Dis. 107 of 18-19 dated 17th August 1918 from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.6[illegible] August 1918, forwarding a copy of the telegram dated 6th August. 1918 addressed by the Central Transport and Foodstuffs Board to the Hon'ble the Resident in Mysore regarding the supply of fodder, I have the honour to state that taking into considerations that the seasonal conditions were not encouraging till very recently, and that they are showing small signs of improvement only recently I do not think that any fodder can be spared from this District for export during the current year. The question whether any import would be necessary can be decided about a month hence.

" C o p y "

D Madhavaya

For Revenue Commissioner.

Letter No.C. 100 dated 17th August 1918 from the Deputy Commissioner, Kolar District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675 dated the 11/12th instant, regarding fodder prospects, I have the honour to state that on account of the failure of rains no sufficient fodder stock is available in this District. It is not possible to say at once even approximately what quantity is available or is required till the next favourable season. It may be stated however that the available stock will be ~~badly~~ hardly sufficient to meet the local requirements and that no stock will be available for export.

" C o p y "

Mahadevappa

For Revenue Commissioner.

B.R.

Letter No.D (2).Dis.67 of 18-19 dated 14th August 1918 from the Deputy Commissioner, Tumkur District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675/G1. dated 12th instant, calling for certain information regarding the supply of fodder in this District, I have the honour to state that the South West monsoon is more or less a failure so far and that the present agricultural prospects cannot be said to be quite encouraging. Judging from the present seasonal conditions, there may not be any surplus stock of fodder anywhere in the District for being exported to places outside the State.

2. If the prospects of the season should prove unfavourable, the existing fodder supply will have to be supplimented by the supply of grass available from State Forests. I do not think that there will be any necessity to import fodder from outside.

For Revenue Commissioner.

B.R.

Docket

~~Letter~~. No.D.(2).Dis. 197/18-19 dated 15th August 1918 from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to his docket No.C.675/G1. dated 12th instant in regard to supply of fodder, has the honour to state that the reports received from Amildars show that supply of fodder is running short in all taluks; but if there should be sufficient rainfall soon, the situation will be eased and there will be no necessity to adopt any special measures. If there should be not enough rain soon, it would be necessary to get fodder for the Nagamangala, Mandya and Malavalli taluks and portions of the Krishnarajpet taluk. It is rather difficult to anticipate what the demand would be, but in case imports from outside are necessary, at least 2,000 tons would be required. In the remaining parts of the District, it is anticipated that there will be a sufficient quantity of paddy straw and cattle can also be driven to the State Forests especially of Heggadadevankote, Gundlupet and Chamarajnagar.. It is not possible to make any fodder available for export to other Province.

There is a certain amount of grass available in the western portion of the Heggadadevankote taluk, but this is required for the cattle of the State, and the experience of the year 1908 in regard to cutting and supplying compressed hay from the State Forests was very discouraging.

" C o p y "

Mahadevaya

For Revenue Commissione

B.R.

Letter No.R.O.C.128-18/H.C. dated 17th August 1918 from the Deputy Commissioner, Hassan District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675/G1. dated the 12th instant, regarding fodder prospects in this District, I have the honour to state that from the reports received from the Amildars, it is ascertained that fodder is not available in the drier parts of the District and that consequently cattle are being removed to the malnad parts Even in the malnad parts there is not much but only enough to last the present season. If rains withhold longer, fodder will have to be imported from outside. But the recent small showers and the cloudy state of the weather indicate that there will be some more showers and fodder may become available. It would suffice if the Amrit Mahal Kavals and State Forests are thrown open for grazing. A separate reference will be made on the subject later on. I may state there is no fodder available for being exported from this District

---

" C o p y "

Dhakaiwappa

For Revenue Commissioner.

B.R
Ev

Letter No.H.C.91/Rev. 1918-19 dated 16th August 1918 from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675 dated 11th August 1918 regarding prospects of the supply of fodder in the Mysore State, I have the honour to state that there is a growing shortage in the District. If the rains do not hold off, the shortage will be soon remedied. I do not think it will be necessary to import fodder from outside the District extensively as the District Forest areas can be trusted to supply all our demands. The question as to how far the State Forests can make available their surplus for export outside the district may be referred to the Conservator of Forests for favour of his openion.

" C o p y "

Mahadevappa

For Revenue Commissioner.

B.R.

Letter No.H.C. 80/18-19 dated 17th August 1918 from the Deputy Commissioner, Kadur District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675/G1. dated 12th instant calling for certain information re the prospects of fodder in this District, I have the honour to state that from enquiries made and some reports received till now it is ascertained that there is just sufficient quantity of fodder at present in the taluks of Koppa and Mudigere to meet the requirements of these taluks and that there is no surplus quantity available for export.

2. Whereas in the taluks of Chikmagalur, Kadur and Tarikere fodder being insufficient, a recommendation has been made to you to obtain the sanction of Government for throwing open the Lakkavalli State Forest and the Amrit Mahal Kaval near Birur free for grazing purposes for about 2 months or more until the seasonal conditions improve.

3. In the meanwhile, I have to state that the ryots of Kadur taluk have been given free permission to cut and remove date leaves as fodder for cattle subject to the restriction contained in paras VII and X of Government Notification No.84550/ Legis. 103 dated 18th May 1901 laying down instructions in the matter.

C o p y "

For Revenue Commissioner.

B.R.

Letter No.Ref. on S.C. 102 Rev. of 18-19 dated 14th August 1918 from the Deputy Commissioner, Chitaldrug District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your docket No.C.675 Gl. dated the 12th instant re supply of fodder, I have the honour to state that there is shortage of fodder in all the Taluks. To meet the demand a reference had been made to the Conservator of Forests who has ordered that grass may be cut and removed from State Forests. Correspondence is being made for permission to use kamara leaves in State Forests for fodder It is also reported that cattle in Hosdrug are being taken to the Malnad forests of Shimoga and Kadur Districts, observing no quantity of surplus can possibly arise in any of the Taluks of this District. As regards the demand it is not easy to estimate the same and furnish the information so as to be available at the Nagpur Conference on the 19th. Any how I have ordered the Amildars to furnish the information by return of post and submit a copy to your office direct to save time. I shall also duly report the same.
